## I'm transported by the Ambulance, what happens next?

- The EMS crew collects all pertinent billing information.
- A bill is created for all transports and submitted to insurance or patient.
- Patients will be billed for any copays, deductibles, or other out-of-pocket amounts that are not covered by their insurance.
- Please contact us as soon as possible if we did not receive your insurance at (325) 573-1912.

## The No Surprise Act, how does it affect me?

Ground ambulance is an out-of-network provider. This means that most ambulance services can send the patient a bill according to their plan benefits.

Scurry County EMS is an Out-of-Network Provider. Our billing department will send a bill to every patient that was transported or assisted by the service.

**Please contact the billing department if you have questions or concerns about a bill received or your account.**

**We are here to help you through the process.**
